

Welcome back to Akhnaton Language School Family! **And our scholastic year 2017\2018**

Welcome to the new school year. I know we are all looking forward to an exciting year full of new adventures and discoveries. I have planned many different activities for this year which will serve to stimulate your child's imagination.

In my classroom, I strive to create an atmosphere where the children feel comfortable in taking chances and taking risks, which is always a springboard for learning. My ultimate goal is to see your child reach his or her full potentials.

I cannot do this alone. To be fully successful, students need not only support from their teachers, but from their parents or guardians as well. This means showing an interest in what they do in school, taking a few minutes to go over their homework, or listening to them while reading a story from their reading book. These actions show your child how highly you value education. It also shows them that teachers and parents are partners in their education.

Above all, please know that my door is always opened. If you feel the need to speak to me concerning your child please do not hesitate to contact me. Good communication between the school and the home is important. You can send a note to me, call the office and leave a message, anything that concerns you child and that affects his or her ability to learn and therefore affects me as well.
